Summary

Motivated & detail-oriented Web Developer with a passion for building AI-powered, scalable, responsive, & visually appealing web applications. Experienced with the MERN stack & modern web tools, capable of managing full project lifecycles from planning to deployment. Committed to writing clean, efficient code & continuously learning emerging technologies to enhance user experiences.

Technical Skills

- Frontend: React.js, HTML5, CSS3, JavaScript, Tailwind CSS
- Backend: Node.js, Express.js, MongoDB, Cloudinary
- Tools & Platforms: VS Code, Postman, Github, Render, Vercel
- Other: RESTful APIs, Responsive Design, Data Structures & Algorithms

Education

Bachelor of Science (Computer Science)

University of Mumbai, 2022-2025

Key Projects

◆ Doctor Appointment Booking System

- Built with modern web technologies featuring separate interfaces for patients, doctors, & administrators.
- Patients can search for doctors, book appointments, and manage their health records.
- Doctors can manage their schedules, view appointments, and update availability.
- Administrators can oversee the entire platform, manage users, and monitor activity.
- Live Link: [DocOnTime](#)

◆ Food Delivery System

- Three role-based interfaces: customer app, restaurant dashboard, and admin panel for platform oversight.
- Customer app for browsing restaurants & placing orders with real-time order tracking.
- Restaurant dashboard for menu management, order processing, and performance analytics.
- Integrated payment processing for seamless and secure transactions.
