Summary

Computer Science graduate with a strong foundation in Full Stack Development and Generative AI (GenAI), complemented by strong problem-solving and analytical skills. Skilled in developing web applications, integrating AI-powered features, managing projects, organizing data, and working collaboratively to deliver quality outcomes. Quick learner and eager to contribute across software development, operations, product, while continuously learning emerging technologies.

Technical Skills

Office & Productivity: Microsoft Excel, Google Sheets, Microsoft Word, PowerPoint

Full Stack: React.js, Next.js, HTML5, CSS3, Tailwind CSS, JavaScript, Node.js, Express.js, MongoDB, Python

Developer Tools: Git, GitHub, Postman, VS Code, Vercel, Render

Core Skills: Data Analysis, Communication, Documentation, Attention to Detail, Problem Solving, Team Collaboration, Time Management, Quick Learner

Other: RESTful APIs, Responsive Design, Data Structures & Algorithms, Database Management, Deployment

Education

Bachelor of Science (Computer Science)

University of Mumbai, 2022-2025

Projects

◆ Food Delivery System

- Developed a full-stack food delivery platform using React.js, Node.js, Express.js, and MongoDB.
- Implemented role-based authentication for customers, restaurants, and administrators.
- Integrated secure online payment functionality and real-time order tracking.
- Built a GenAI-powered chatbot with LLM integration, multilingual support, and personalized food recommendations.
- Designed responsive user interfaces and RESTful APIs for seamless user experience.
- Live Link: [QuickBiteXpress](#)

◆ Doctor Appointment Booking System

- Built a healthcare appointment platform using the MERN stack with dedicated portals for patients, doctors, and administrators.
- Implemented appointment scheduling, doctor availability management, and secure authentication.
- Developed REST APIs for user, appointment, and admin management.
- Designed responsive interfaces to improve usability across devices.
- Live Link: [DocOnTime](#)

Certifications

MERN Full Stack Development – AccioJob

Completed hands-on training in MongoDB, Express.js, React.js, and Node.js. Built full-stack web applications with authentication, REST APIs, payment integration, and deployment.

[Certificate](#)

Prompt Engineering – Great Learning

Completed a course in Prompt Engineering, gaining expertise in designing and optimizing AI prompts for improved accuracy and efficiency.
